

COMMUNITIES IN MOTION 2050

COMMUNITIES IN MOTION 2050 VISION

The *Communities in Motion 2050* Vision illustrates the preferred growth scenario to the year 2050 for Ada and Canyon Counties, ID. Created using input from local stakeholders, including the public, the Vision guides development of the long-range transportation plan, *Communities in Motion 2050*. Both the *Communities in Motion 2050* plan and Vision support safety, convenience, economic vitality, and quality of life for all residents.

This map depicts how the region is forecasted to look in 2050, based on the *Communities in Motion 2050* Vision. The corresponding color-coded illustrations and descriptions below provide details about each development type.

COMPASS
COMMUNITY PLANNING ASSOCIATION
of Southwest Idaho

The Community Planning Association of Southwest Idaho (COMPASS) is an association of local governments working together to plan for the future of Ada and Canyon Counties. COMPASS members coordinate regional efforts and set priorities for spending federal transportation funding.

FUTURE ACTIVITY CENTERS

Activity centers are concentrations of residential and commercial areas, such as downtowns, office parks, and shopping centers. They represent the highest densities and most diverse land uses in the region and support a robust mix of transportation modes.

EXISTING NEIGHBORHOODS

Existing neighborhoods comprise most of the built environment and have opportunities for reuse and infill. These are primarily urban residential areas, but also include services such as parks, schools, and shopping. A balance of transportation options is needed, depending on the location and specific land uses.

FUTURE NEIGHBORHOODS

Future neighborhoods are anticipated to be developed as urban neighborhoods by the year 2050. They are mostly located near existing infrastructure to avoid consuming farmland. A balance of transportation options will be needed, depending on the location and specific land uses.

RURAL

Rural areas include farmland and open space. Most arterial roads in rural areas are regional and are meant for longer trips.

HIGH-CAPACITY TRANSIT

The *Communities in Motion 2050* Vision includes two high-capacity transit routes: 1) regional rail along the Boise Cutoff rail corridor alignment south of the Boise River and 2) bus rapid transit along the State Street/State Highway 44 corridor north of the Boise River. Both would provide quality east-west transit service connecting the region's major cities and activity centers.

AREAS OF IMPACT BOUNDARY

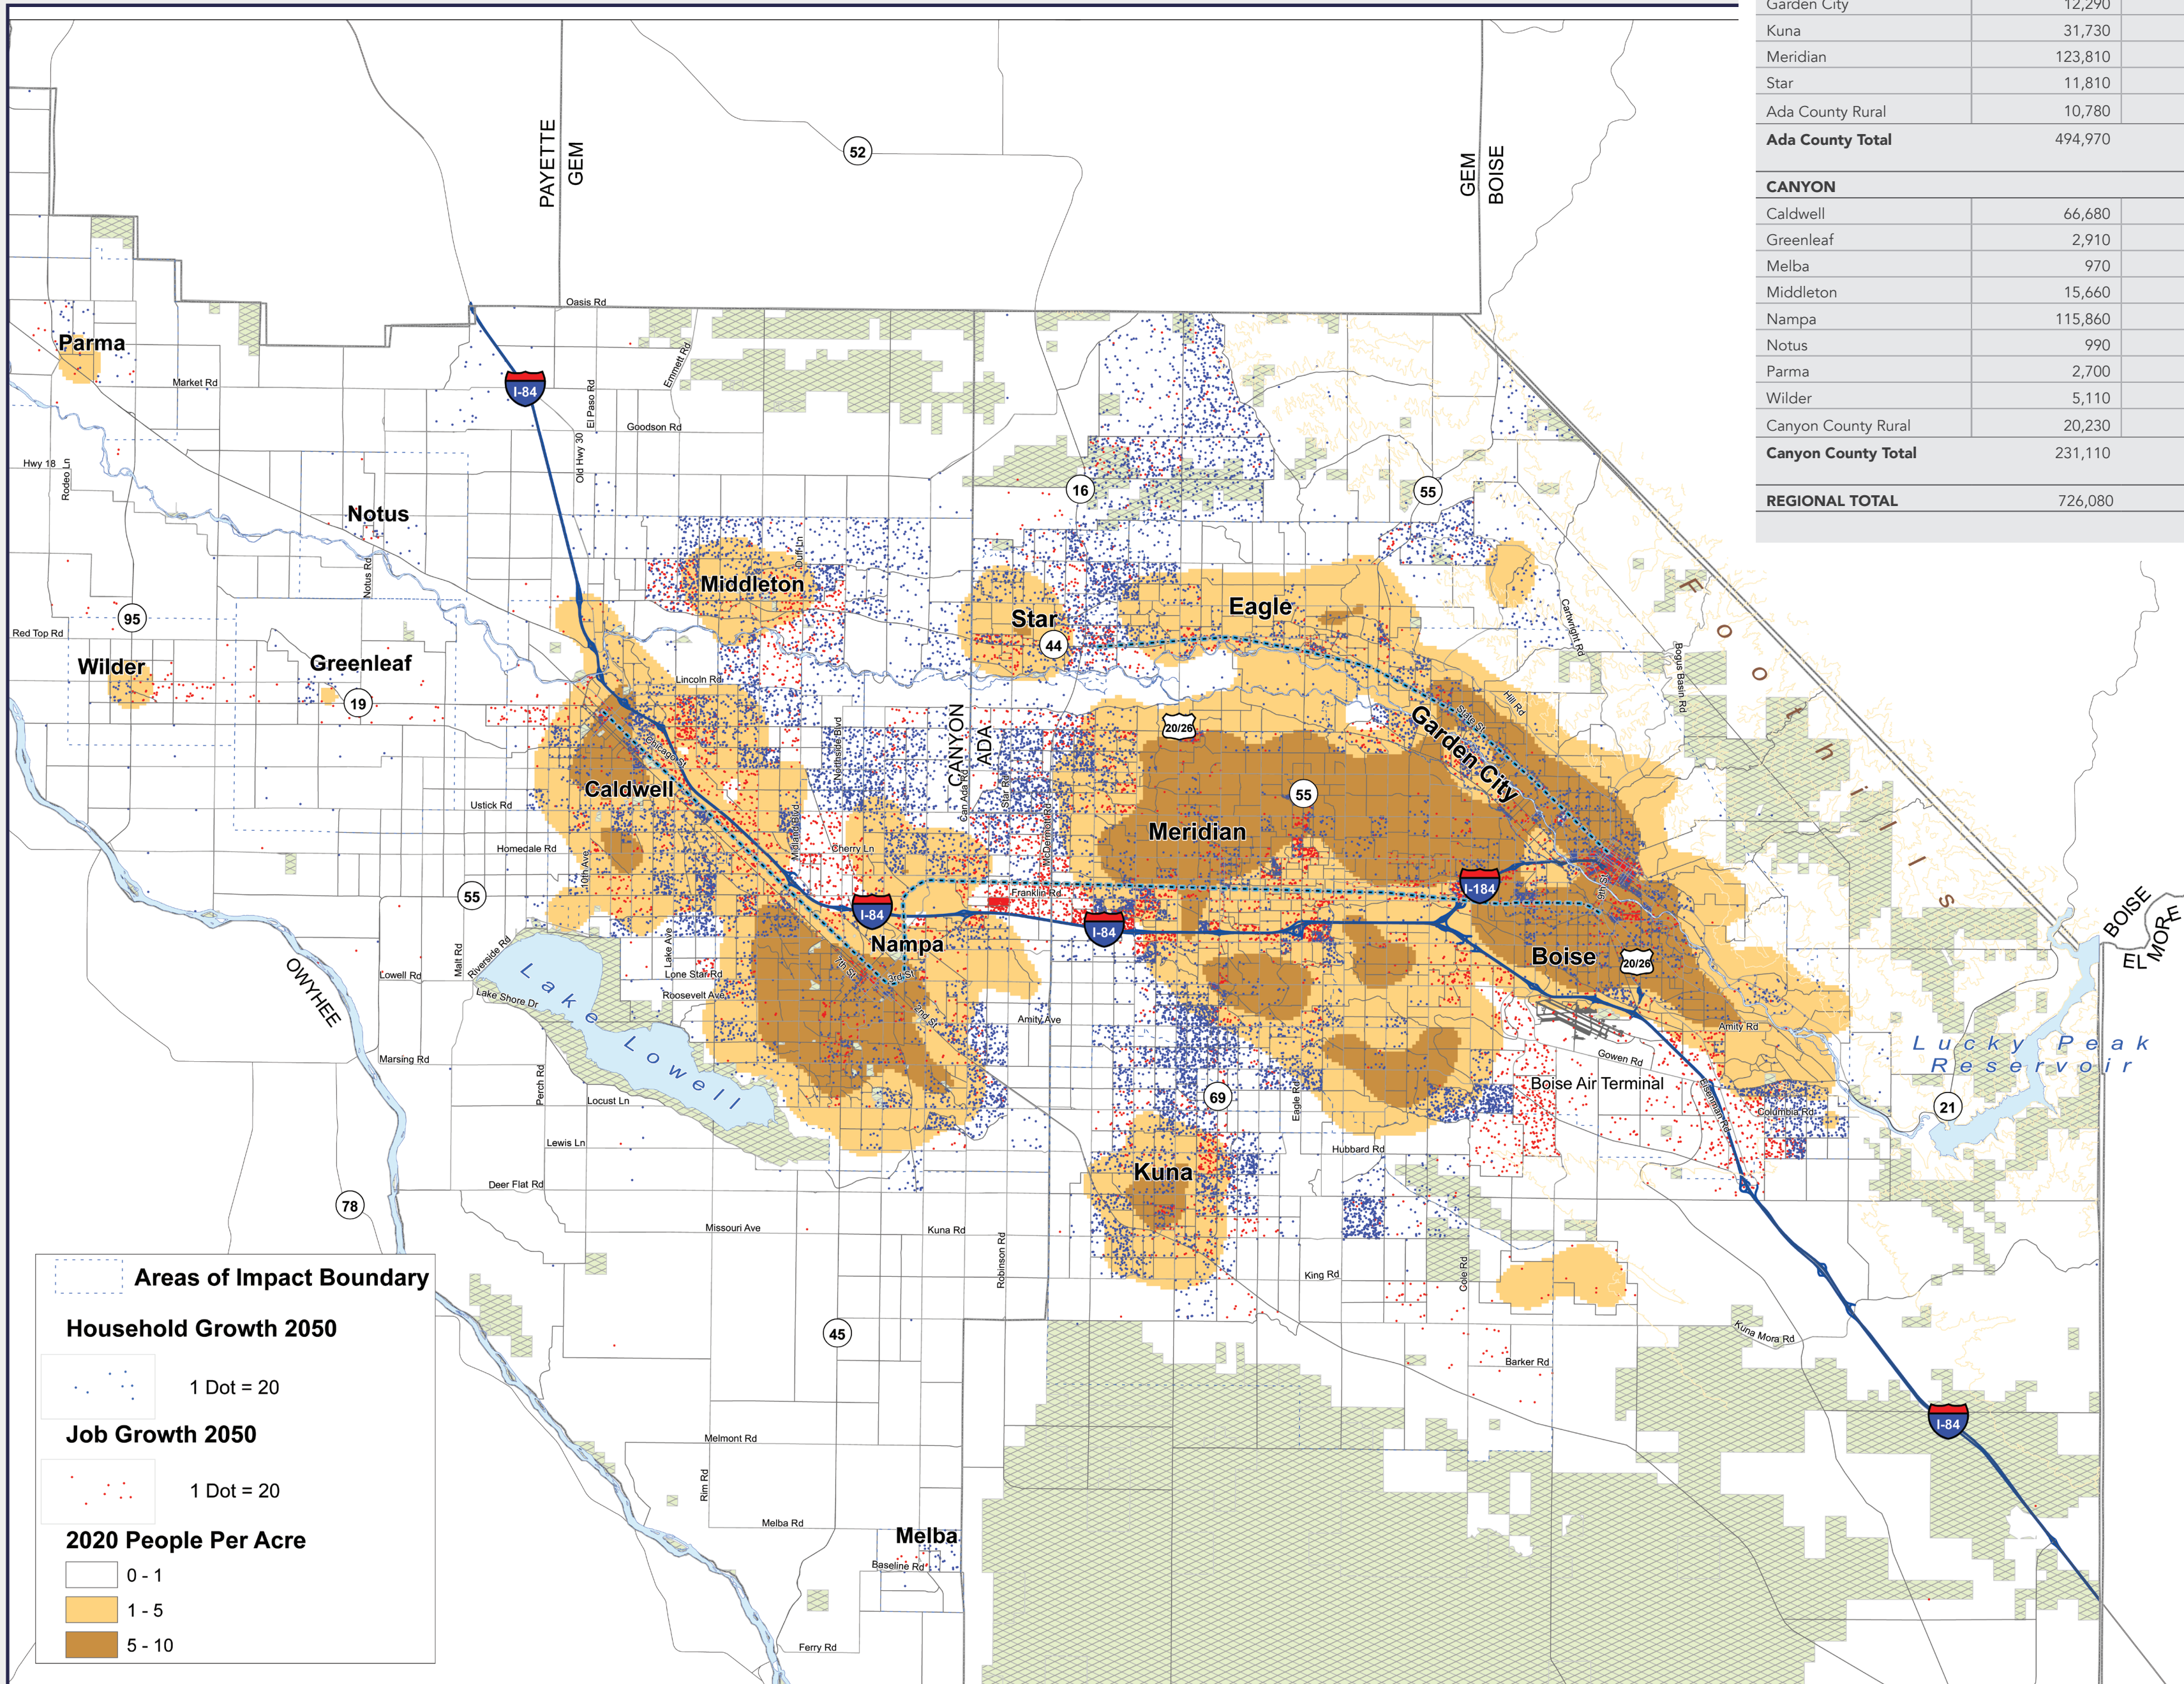

This boundary around each city reflects the area that is expected to be annexed into the city in the future. The boundaries are designated by each city, with agreement from the county, to guide future development to be near existing infrastructure to help ensure access to public services and protect rural lands. The population and jobs figures shown on the back of this map are based on these boundaries, as opposed to current city limits, to provide a more realistic comparison between 2020 and 2050.

FORECASTED GROWTH

COMPASS forecasts that 1,075,000 people will live in Ada and Canyon Counties by 2050. The map below shows the location and density of households and jobs in the region in 2020 and where new growth is likely to occur by 2050. The year 2020 is represented by solid colors, with darker shades indicating more densely populated areas. Dots reflect the additional households and jobs forecasted by 2050, with each dot representing 20 new households (blue) or jobs (red). The table reflects similar information, comparing 2020 and 2050 population and jobs for each municipality.

The figures in this table are based on areas of city impact as of July 2021 and rounded to the nearest 10

	2020 Population	2020 Jobs	2050 Population	2050 Jobs
